5	Changes to purpose	<u>Direct advertisement</u> : BTU hereby informs that it processes customers'
	(Forwarding)	and traveler's personal data for the purposes of direct advertisement (incl.
		profiling). BTU intends to use direct advertisement to aid in the marketing of
		advertised (proprietary or third-party) services and products. The data will
		not be passed on to any (non-group-affiliated) third parties for this
		purpose. There is no incompatibility with the purpose of the original data

 $^{^3}$ Direct advertisement is any direct addressing of data subjects for advertising purposes, such as for sending letters or brochures, as well as telephone calls or electronic messages.

	the purposes of direct advertisement:	Point 9.). Messages for this purpose can be sent via the website, mobile applications (customer portal) or by e-mail. BTU has a legitimate interest in processing personal data for the purposes of direct advertisement (Recital 47, last section of GDPR). This solely involves the processing of customer data in the possession of BTU from the contractual relationship and for which the retention period still applies. This does not involve an extension to the retention period. The primary goal of data processing is acquiring customers with the objective of bringing them into a (preliminary) contractual relationship and retaining them as customers. BTU relies on its constitutionally protected freedom of running a business (Art. 6 StGG (Austrian Constitution)) and freedom of communication (particularly Art. 10 ECHR, which also protects advertising measures), and on those rights To send postal advertisement; To make advertising calls following consent; To send electronic mail following consent; To send electronic mail in accordance with Section 107 Para. 3 ofthe Telecommunication Act (TKG); BTU complies with legal, communication-related requirements			
			a, particularly those of Section 107 TKG.		
	Data processing				
	withinthe group:	BTU is part of a corporate group. BTU uses group-affiliated companies on a collaborative basis to fulfil its extensive obligations (processing bookings via a central booking system, payment systems, marketing, accounting, etc.). BTU has a legitimate interest therein (Recital 48 of GDPR). This particularly relates to the management of booking data from all group-affiliated companies performed via a central booking system. Thisdatabase is maintained by BTU; data is saved and managed centrally. Units of group-affiliated companies have access to this database or personal data only for the purposes of contractual and legal fulfilment as wellas to protect legitimate interests. These units have a contractual obligation to observe all applicable legal conditions for data protection.			
	IT security	BTU saves the IP addresses of its customers for a period of 7 days in order to defend against targeted attacks in the form of overloading servers (denial of service attacks) and other damage to systems. BTU has alegitimate interest in this form of data processing for the purposes of maintaining the functionality of its services provided online (Recital 49 ofGDPR).			
9	Analyses of per-	Type	Description		
	sonal aspects of the customer("profil-ing")	"Gathering and storing"	BTU stores customer activities (e.g. travel data, flight data, travel destinations, information concerning the organization of congresses, events and group travels, complaints, special services, personal preferences, response to offers etc.) to enable optimal customer care and to ensure relevant and targeted		
			measures can be used to improve satisfaction and customer retention, and to adjust the service on an individual basis.		
		"Analysis of per- sonal interests"	BTU stores customer behavior, special services, personal preferences, and thus deduces specific personal interests in order to prevent dispersion losses (and to minimize data processing operations) when playing advertising content and within direct marketing. BTU uses these analyzed interests in or-		
			der to communicate targeted, interest-specific offers and advertising to customers and thus prevent dispersion loss in advertising.		

10	Objecting to "profil- ing":	The customer and the traveler can object to the use of their personal data for the purposes of profiling by sending an e-mail to datenschutz@btu.at at any time without providing any reasons to the controller. By lodging an objection, BTU will no longer use the customer's personal data for the purpose of profiling in future.		
11	Obligation to pro- videdata	Customers are under no obligation to provide data except to fulfil legalre-porting obligations. Without the provision of data the contracted ser-vices cannot be provided.		
12	Automated deci-	The customer is not subject t	o any automated decision that has a legal	
	sion-making	effect upon them.		
13	Types of data pro- cessed	The processed customer data are stored in a customer database after a master data collection, or by direct entry of the data by the customers or the traveler in a profile. This serves the management of the data to carry out the bookings and provide the contractual service.

	https://plausible.io/data-policy "Social-plug-ins": BTU itself does not collect any personal data via "social plug-ins" and their use. However, it is possible that personal data about visitors to the BTU website is collected via the plug-ins, transmitted to the respective service and linked to the visitor's respective service. To prevent data from being transmitted to the service providers in the USA without the user's knowledge, BTU uses the so-called "Shariff solution" on its website. This has the effect that the plug-ins are initially only integrated as a graphic. The graphic contains a link to the website of the respective provider, and the user is only redirected to the provider's service when he or she clicks on it. This prevents personal data from being automatically forwarded to the plug-in provider when the BTU's website is visited. Data can only be transmitted when the graphic is clicked. By clicking, the respective service provider receives the information that the user has visited the respective page of the BTU's online offering. You do not have to be logged in to the respective provider or have a user account for this. If you have such an account, the data collected by the plug-in provider can be directly assigned to your account there. We have no influence on whether and to what extent the service provider collects personal data. The scope, purpose and storage periods as well as the further processing and use of the data there are not known to us. This information and information on your data protection rights and setting options can be found in the data protection information directly from the website of the respective service
